Lancaster Farming

VOL. 12 NO. 46 | Lancaster Farming, Saturday, October 14, 1967 | $2 Per Year

WHICH COMES FIRST? Five-year-old Jeffrey Kline, Lititz R3, really sees no connection between the big sculptured egg (one of a dozen on-display) and the little chicks. Jeffrey posed for this picture when he visited the NEPPCO Exposition at the Farm Show Building this week, with his parents Mr. and Mrs. Paul B. Kline.

4-H Capon Exhibit At Elks Club On Tuesday, October 24

The 4-H Dressed Capon Exhibit will be held on Tuesday morning, October 24, at the Elks Club, 219 North Duke St., Lancaster, according to Arnold Lueck and Jay Irwin, county agents This is located opposite the fire station. Have your birds at the exhibit hall by 9 30 a m Judging will take place between 10 and 11 30 a m Birds will be weighed and tagged at the hall. All exhibitors are invited to be guests for the noon meal of the Lancaster Kiwanis Club Awards and trophies will be presented during the meal. The entire program should be over by

Farm & Home Foundation Revitalizing Campaign

The Farm and Home Foundation of Lancaster County is revitalizing its Farm Gifts Campaign with the aim of completion in the next few weeks Weather and crop season complications faced by the farmer-solicitors slowed down their activities during the past months Now that the tobacco harvest is completed, a strong effort is underway to complete solicitations before the farmers get too busy with their own harvesting

Co-chairmen of the Farm Gift Campaign, Levi H Brubaker and Lawrence H Skromme, have called a meeting of the Farm and Home Foundation Board of Directors and Farm Gift Chairmen for Monday, October 16, at 10 a.m. at the site of the new building to launch the wrap up effort of this campaign

The new Farm and Home Center is rapidly taking form. Completion is anticipated by the end of this year. When ready, the Center will serve as a common meeting place for the farmers of Lancaster County, not only for their many meetings and activities, but also as the source of the many

FFA Youth Is Winner At Manheim Farm Show

Robert Donough, a 16-year-old FFA youth in the Manheim Central High School Chapter, took grand champion honors at the Manheim Community Farm Show Thursday evening, with his chunky black angus Donough, a junior, is the son of Mr. and Mrs. Paul Donough, Manheim R1

Reserve grand champion honors went to the top 4-H entry, a Hereford, shown by John Long, son of Mr. and Mrs Silas Long, Manheim R4.

Judge for the show was Jay Coble, Hershey R1

Placings were as follows:

FFA Angus: 1, Robert Donough, 2, Lester Heistand, Manheim R4; 3, Ed Donough, Manheim R1, 4, Barry Garber, Manheim R1

FFA Herefords: 1, Nelson Thomas, Mount Joy R2; 2, Nelson Hoffer, Manheim R3; 3, John Nissley, Manheim R1.

Charles Shuman

Charles Shuman To Speak At Farmers' Meet

Charles B Shuman, president of the American Farm Bureau Federation, will be the speaker for the Lancaster County Farmers' Association Annual Meeting, which will be held in Lancaster Tuesday, Oct 17, at the Holiday Inn, according to an announcement made by Noah Wenger, Association president

Each year the Lancaster Farmers' Association meets to discuss local policy and make policy suggestions to the Pennsylvania Farmers' Association, an affiliate of the American Farm Bureau Federation The Lancaster organization has 1,030 family memberships in the local unit.

President Shuman became president of the American Farm Bureau, the largest general farm organization in the world, in December 1954, and has been re-elected president for six additional two-year terms.

He is a stock and grain farmer and lives near Sullivan, Illinois, where he began his work in the Farm Bureau organization. Shuman actively participates with his three sons

Poultrymen Face Battle In Urban Developments

HARRISBURG — Poultrymen will have to give up any "public-be-damned" notions they may harbor if they are to copy with the problems of an ever-expanding urban population.

This was the concensus of a three-man panel of experts that sifted the problems of odor and flies from poultry farms that wind up in the center or on the fringes of new housing developments

The discussion fired the opening gun on three days of educational sessions, displays and competition at the annual exposition and convention of the Northeastern Poultry Producers Council (NEPPCO) in the Farm Show Building here.

The peculiar problems of

(Continued on Page 5)

DO YOU DISPOSE OF PESTICIDE CONTAINERS PROPERLY? The Manheim Central FFA boys do in their winning window display at the Community Farm Show this week. They recommend 1) Dig disposal pit; 2) Burn bags and cartons; 3) Break glass containers; 4) Flatten metal containers; 5) Bury ashes and cans; 6) Don't reuse empty containers. Ephrata FFA was second with "Traffic Safety", and the Elizabethtown Farm Youth were third with "Feed Complete Feed." In the photo (left to right) Barry Garber, Manheim R1; Richard Gruber, Elizabethtown R3; Robert Donough, Manheim R1; and Lester Heistand, Manheim R4. Heistand is president of the local chapter, Gruber is vice president and Garber is sentinel.

PLOW UNDER RESIDUES

Crop residues and weeds plowed under usually add organic matter to the soil Plowing under also helps kill insects and diseases especially if the ground freezes to plow depth or deeper, reminds James O Dutt, extension vegetable crops specialist at Penn State University Rotation of crops also helps control insects and diseases on next year's crop.

FINISH CATTLE ECONOMICALLY

with WAYNE BEEF BALANCER

This economical blend of protein ingredients, including urea, helps finish cattle on good quality roughage — economically and efficiently. It does an excellent job of balancing farm grains to build meaty, top grade carcasses at minimum feed costs.

Wayne Beef Balancer is available with or without stilbestrol, with or without aureomycin, or with a combination of both.

From Where We Stand . . .

National Bible Week 1967

This year the week of October 15 through October 22 will bring the observance of National Bible Week. The theme of the occasion will be "The Bible: Good News for Modern Man." Vice-Admiral William F. Raborn, Jr., national chairman of an interfaith program for encouraging use of the Bible has said that this theme, ". . . seems to be particularly significant because of the difficult and deeply troublesome responsibilities which our country is facing in its staunch support of man's basic freedoms. Certainly the teachings of the Bible are doubly applicable and bring inspiration, strength and understanding to the peoples of the world and their leaders representing the Protestant, Catholic, and Jewish faiths, who, with others, are opposing the resurgence of the forces of evil."

The sanctity of man and the value of a single human life are basic tenets of Christianity as are compassion, understanding and generosity directed toward those less fortunate or suffering affliction. The Lord demonstrated the meaning of these values and the strength of faith during the years of his ministry. The story lies within the pages of the Bible available to each of us as an unfailing source of inspiration, guidance, and strength. Let each of us make this observance of Bible Week a time for realization that this Book still carries within its pages the only light that can show man the way to live in peace with his neighbors. It is the light of life itself that none of us can do without.

At least that's the way it looks from where we stand.

Poultry Tour A Success

With the completion of the NEPPCO Poultry Tour into Lancaster County this week, a word of congratulations are in order for our local poultrymen who made it a success.

From the question and answer period at Plain and Fancy Monday evening, it was obvious the out-of-state and foreign visitors were impressed with our local poultry industry.

And well they should be. With our poultrymen supplying a reported one percent of the countries poultry products it is natural that outsiders would be watching to see how we do it.

So again, congratulations poultrymen for bringing just one more honor to our county through your fine workmanship in the NEPPCO Lancaster County Tour.

Try A Stretcher, Sometime

We received this little slogan from the National Safety Council and we thought it worth while passing on to you.

IF YOU THINK SEAT BELTS ARE UNCOMFORTABLE . . . . try a stretcher, sometime.

Along with the slogan were these items on a fact sheet.

53,000 people lost their lives in traffic accidents during 1966. 35,100 were drivers or passengers in automobiles. If they had been using seat belts, at least 8,000 to 10,000 of those lives would have been saved.

Three-fourths of all traffic accidents occur within 25 miles of home.

Half of all injury-producing accidents occur at impact speeds of 40 m.p.h. or less.

Your chance of survival is five times greater if you stay **inside the car.** Thousands of deaths and serious injuries are caused by being thrown from the car . . . being dragged or run over by another vehicle . . . or being **run over by your own vehicle.**

A seat belt can help keep you from being knocked unconscious . . . your chance of escaping if the car catches on fire or goes into water is multiplied hundreds of times.

Only 20 per cent of all serious accident in a convertible involve a rollover. In the other 80 per cent, belts would prevent ejection.

Seat belts can help prevent the second collision . . . being thrown around **inside** the vehicle.

More than half of all passenger car occupants are now provided with seat belts . . . BUT they are using those belts only about half of the time.

Even this limited use, however, saved about 2,000 lives in 1966.

You may only need seat belts once but you don't know which once, so, you better fasten your seat belts every time you stick the key in the ignition.

At least that's the way it looks from where we stand.

Across The Fence Row

A dog can say a lot with just a bark or a tale wag.

* * * *

Our forefathers ran a farm with less machinery than we use to keep the lawn in shape.

* * * *

Only fools think they are always right.

* * * *

Here comes the eager fisherman
With fish to clean and share.
His fish-shy neighbors bolt their doors.
His poor wife doesn't dare.

— Viola Conklin

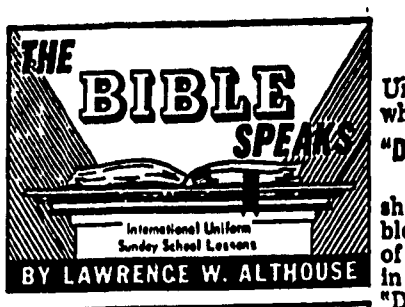
* * * *

Then there's this story: A man walked into a federal office and asked if it were the headquarters for the war against poverty. When told that it was, he said, "I surrender". — Carl Markey, Sarasota, Fla.

Weather Forecast

The temperatures for the five-day period are expected to average above normal with the high in the mid 60's to low 70's. Over night lows will be in the mid 40's in the North to low 50's south portion. Normal high is 67 and normal low is 44.

Rain may come by Sunday and again on Tuesday and total one-fourth to one-half inch occurring as showers.



HIS OTHER JOB

Lesson for October 15, 1967

Background Scripture: Amos 1, 2, 9:7-8.
Devotional Reading: Psalms 67.

A little girl asked her father one day, "Daddy, what does God do all day long?" "Why he's your heavenly Father," he replied, surprised at the question.

Yet this was not an adequate answer for the little girl, for she knew that her own father was more than a "daddy." He had a job in the world beyond their home. Thus, as her own father had more to do than just being a "daddy," surely God too had more to do than to be her "heavenly Father."

Rev. Althouse

As writer Bruce Larson has suggested, our religion too often is "Daddy-centered." We think of God as exclusively "our Father," as if he had nothing else to do, no other role to play. Yet, as Jesus said, "My Father is working still, and I am working." God is more than a Father; he is also a worker. Long ago he created the world, but today he is still working in his world, still fashioning it according to his plan and purpose.

We Tend To Forget

Of course we know this, but we tend to forget it very easily. We think of God as a household or local deity. We say "our God" with an unmistakable possessive inflection in our voices. He is the God who is so intimately concerned with my individual life in all its facets, however tiny, that I forget that he is also Creator of Man and Earth, Ruler of the Nations, Lord of the Universe.

God is concerned with my personal problems and needs, but I need to remember that he is also concerned with groups of people, communities, races, nations, worlds. My relationship with the family next door is of interest to him, but so are the relationships between the Soviet Union and the United States, between blacks and whites, between East and West.

"Daddy-centered"

It is not so strange that we should forget this, for, as the Bible makes clear, this is the story of mankind. The people of Israel in the day of Amos, had a rather "Daddy-centered" religion. Though they realized that he was intimately involved with their individual lives, they did not seem to understand that he was also interested in the world about them.

What a shock then when Amos came with his prophecies, condemning the neighboring nations, not because they worshipped the wrong gods in the wrong temples with the wrong rituals under the wrong priests, but because as nations they had transgressed against each other. Damascus, Gaza, Tyre, Edom, Moab, and the Ammonites: all had committed terrible deeds against their smaller, weaker neighbors.

Why should "our Father" be concerned with relationships and affairs of nations? Because he is more than "our Father". That is, he is interested and involved in what is happening in the world, between both individuals and groups of people. As he wills righteousness for individuals, so he wills it for communities and nations too.

Even Our Enemies

Furthermore, not only does he pronounce judgment upon the events of our world, he also is at work in these events. He worked through Judah and Israel, but he also worked through the enemies of these two nations. So it is even today in our world. More than "our Father," he is also the Lord of History, unfolding his purpose in the life of our nation and even in the affairs of those unfriendly and hostile toward us.

Let us never lose our understanding that God is "our Father," but let us also never forget that he has more to do than that. History does not blunder on blindly; even in its fits and starts, its ups and downs, it is moved by the power of him who is both "our Father" and the Lord of history.

Go To Church Sunday

NOW IS THE TIME . . .

By Max Smith

Lancaster County Agent

To Eradicate Rats . . .

Colder weather will be arriving in the next several weeks which will drive the rat population to nearby buildings. With the above-normal corn crop many farmers will be storing their corn in places not protected from rodents; this means that we may have serious rat damage on this corn, if we do not adopt eradication practices. A good sanitation program is the place to start along with the use of poison bait stations. In severe cases professional exterminators may be secured to eliminate the rodents and thus save many dollars worth of grain.

To Control Chickweed . . .

It appears that we may have a very heavy growth of chickweed in legumes and winter grain this fall and winter. Growers are urged to adopt spray control practices later this fall and early winter to control this winter-time weed. Rank growths of chickweed can smother new legume seedings and be hard on any winter grain stand. Chloro IPC, Dinitros, or Karmex chemicals may be used. Spray operators are urged to become acquainted with the way to apply each of these materials before going to the field; there are some restrictions.

To Inspect Electric Wiring . . .

On many farms additional pieces of electric appliances and equipment have been added since the original wire installation. This might mean that the wiring is overloaded and a fire hazard exists. Also, there is always danger of rodent damage to the insulation and another fire hazard. Farmare are urged to take the time to inspect their wiring or have the local power company official or electrician to make sure the circuits are safe.

● Poultrymen Face

(Continued from Page 1)

Sullivan County, New York, were outlined by Earle A. Wilde, county agricultural agent. Differences between householders and poultrymen reached an acute level in this area several years before most other spots in the Northeast, he reported.

Although he spiced his presentation with humorous stories of the conflicts that arise over poultry farm odors and manure disposal, one lesson was pounded home: The poultry industry can ill-afford the attitude that "this is my land and I'll do as I please with it."

The poultryman's problems begin when communication breaks down between "ranchers" and ranch-house owners, Wilde declared. Where a planned, concerted effort has been made to work closely with the public, difficulties have been minimized, he reported.

As an example of the type of accident that can strain relationships, Wilde related the story of how 30,000 gallons of liquid manure from a broken storage silo flooded a state highway hubcap deep.

In his talk, Wilde concentrated on the guidelines for a poultryman-to-public approach that can enable them to exist side-by-side amicably. The follow-up speaker, David E. Hefler, NEPPCO's director of member services, concentrated upon the legal aspects of the "nuisances" that may come to light where farms and houses are cheek to jowl.

Since most cases that reach the court level rarely completely vindicate the poultry farm involved, Hefler recommended a policy of prevention as the wisest course to follow.

Lawyer Henry C. Schragger, NEPPCO's legal counsel, drew upon his personal experience in the courts to point up the difficulty in reaching a satisfactory settlement once negotiations have broken down. He, too, urged his audience of poultrymen to move toward solving their differences with burgeoning homes through preventive action, and before communications and understanding breakdown.

Panel moderator John Bezpa, Rutgers University extension poultry specialist, pointed out that "poultrymen have an obligation to their neighbors and their community. He proceeded to outline some of the steps being taken in New Jersey to enable poultry farms and householders to co-exist on a friendly basis.

He went on to point out that homeowners, too, must recognize and respect the scope and value of the poultrymen's role in expanding food production.

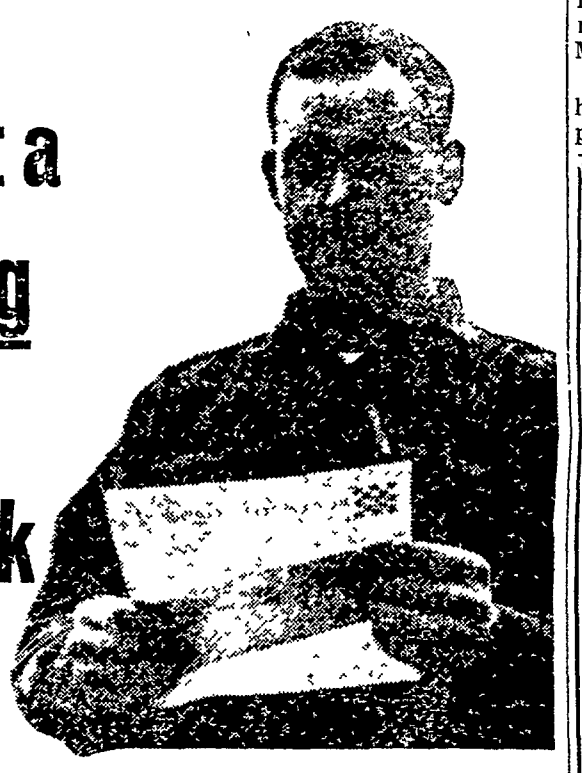
Want a Big Milk Check ?



Let Purina help you get it!!!

Milk prices influence the size of your milk check. So does the amount of milk you sell. The Purina Dairy Program promises to help dairymen get lots of milk to sell.

Now, with milk prices on the rise, it's just good common sense to feed your cows the Purina Dairy Chow that best fits your herd and your roughage *More milk from the same cows* can make your milk check grow bigger and bigger. Keeps down the overhead expense of adding more cows.

Feed Purina Dairy Chows . . . Complete or concentrates. They are backed by Purina Research and proven by leading dairymen in this area. Ask us for details of the Purina Dairy Program. It's designed to help produce big milk checks.

agricultural services which are rendered by the non-profit agricultural agencies of the county When completed and paid for, the Center will be primarily self-supporting, since the office rentals of these agencies will carry a large share of the Center's upkeep.

The Farm and Home Center will also serve as a liaison between the farm and urban residents Many activities of interest and benefit to the homemaker and city dweller will be available in this new Lancaster County Community Center.

● 4-H Capon

(Continued from Page 1)

1:30 p.m. Birds will be sold to the Kiwanis Club members.

Each member should plan to bring four (4) birds. Three (3) of these should be as nearly matched as possible for exhibit purposes. The extra bird will be offered for sale only. All should be oven-ready and wrapped in clear plastic bags. If you have questions on dressing or displaying birds, feel free to contact the county agents' office

Ready for market... in record time!

SURE — YOU WANT TO GET YOUR STEERS TO MARKET FAST. HERE IS WHERE RED ROSE CATTLE SUPPLEMENTS CAN HELP YOU. MIXED WITH YOUR HOME-GROWN GRAINS THESE SUPPLEMENTS WILL FURNISH THE PROTEINS NECESSARY FOR PROPER BALANCE AND BETTER FEEDING.

RED ROSE

32 Beef Cattle Supplement

This is the supplement to use as a mixing ration for home grains — or it can be used as a protein supplement to balance the feeding of low protein roughages.

RED ROSE

50 Beef Cattle Supplement

This supplement is in mash form Feed it at the rate of one pound per head per day. (The nutrient fortifications in 50 Beef Cattle Supplement are double the levels of 32 Supplement).

Red Rose Steer Feed is ideal, too. Add it to your corn or other grains to produce well-finished steers.

WHEN YOU ARE READY TO CONTRACT YOUR CATTLE FEEDS decide on the Red Rose Booking Program. It guarantees November 1967 through April 1968 delivery **at the bottom market price.** You do not obligate yourself for any fixed amount of supplement — you take what you need and pay the low price for what you take; no charge for what you book and do not use. CALL YOUR DEALER NOW.

These Red Rose Dealers will furnish all of your feed needs.

in the farming operations of his 270 acre farm near Sullivan The home farm has been in the Shuman family since 1853

Outstanding interests of President Shuman are shown in his work to secure adoption of modern soil building practices, his fight for better schools, and his active participation in the organization and operation of farm cooperatives.

The Illinois farmer graduated with honors from the University of Illinois College of Agriculture and earned his master's degree in agronomy at the state university

He has served as a county Farm Bureau president, state board director and state president in his home state, prior to being elected a member of the national board and later its president

Volunteers Day Set For October 17 At Service Center

The Volunteer Service Bureau of Lancaster County is sponsoring a "Volunteers in Action" Day, on Tuesday, October 17, at the Health and Welfare Center at 630 Janet Ave Identical programs will be held, in the morning from 9 30 a m. to 11 30 a m , and afternoon from 1 30 p m to 3 30 p m It's free, and any man or woman who might be interested in some kind of volunteer work — now or in the future — is urged to attend.

The purpose of the program is to interest more people in volunteer work Community Chest, Federal, and private agencies using volunteer workers will be represented by display materials and hostesses, so that a new volunteer will be able to see the variety and scope of volunteer jobs available This will be an unequaled opportunity to find the answers to any questions you may have in the field of volunteer work.

The Volunteer Service Bureau of Lancaster County has been in operation for almost a year and has thus far made referrals in 46 agencies There are now many more jobs available than people to fill them. Service is offered to agencies in the Health, Welfare, Educational, Cultural, Recreational, and Civic fields If groups would like to learn more about volunteer opportunities, there is a Speaker's Bureau established to fill requests

Five Acre Corn Contest Rules Stated

The rules for the five acre corn contest were announced this week by Arnold G. Lueck, Associate Agricultural Agent. They are as follows:

1. Only machine harvested, either picker or picker-sheller or combine, will be done. **No hand harvesting.**

2. In order to obtain a higher degree of sampling accuracy, five (5) randomly selected locations within each field will be chosen At each of the chosen locations we will harvest two rows The distance to harvest will depend on your row width. We will likely cut away by hand a three foot area at each end of the plot to be harvested. **Two row harvesters** will have one (1) sample weight per location, and a total of five (5) per field. **One row harvesters** will have two (2) sample weights per location, and a total of ten (10) per field.

3. Moisture sample will be taken from the harvested plots.

4. A population check is **not** required before harvest time. Field information, cultural practices and so on will be needed as usual. Have soil test handy.

5 It will be all right to open up the field. This is recommended.

6 Call the Extension office several days in advance of when you plan to pick the field

Holstein Type Classification Program Starts

The type classfication program for Registered Holstein Breeders in Southeastern Pennsylvania, including Lancaster County, will begin December 4, according to David C Slusser, Fieldman for the Pennsylvania Holstein Association.

Participation is open to anyone with a Registered Holstein female that has freshened. Also males over two years old are eligible to be scored You must complete the application and mail it with the group program fees to the Holstein-Friesian Association of America, Brattleboro, Vermont by the mailing deadline of **October 31** if you wish to participate This deadline is strictly observed

"If there are days during December when your herd cannot be classified, be sure to note this on the application with any other special requests," Slusser said "You will receive a seven to ten day notice of classification time and date"

State Soil And Water Meet To Be In Lancaster

The 20th annual conference of the State Soil and Water Conservation Commission and the Pennsylvania Association of Soil and Water Conservation District Directors, Inc, will be held at Lancaster November 8-10.

Approximately 400 district directors, conservation agency representatives and conservation leaders from Pennsylvania and surrounding states are expected to attend sessions to be held at the Host Town Motel.

Plans for the meeting were announced jointly by State Agriculture Secretary Leland H. Bull, chairman of the commission, and David J. Woods, president of the state association.

The conference will open with committee meetings and auto tours for early arrivals Wednesday afternoon, November 8, followed by an evening program sponsored by the host district of Lancaster County.

Thursday's agenda includes a breakfast meeting sponsored by the New Holland Division of Sperry Rand Corporation, with Miss Rebekah Sheaffer, a former Lancaster County school teacher as guest speaker a panel discussion and presentation of awards a tour in the afternoon and the annual banquet in the evening at which Lieut Governor Raymond J. Broderick will be the speaker.

The conference closes with a district directors workshop and the annual business meeting of the state association on Friday morning.

By Mrs. Richard C. Spence, Food Editor

SPECTACULAR CAKES

When you want to show off your cooking prowess, serve these "spectacular cakes". The preparation may take a little extra time, but the raves you will win will be worth the extra effort

ICE CREAM CAKE

- 1½ quarts chocolate ice cream
- 1 cup sifted all-purpose flour
- 1 tablespoon baking powder
- 1 teaspoon salt
- 3⅓ cups honey-flavored graham cracker crumbs, finely rolled
- ¾ cup butter or margarine, softened
- 1 cup sugar
- 3 eggs at room temperature
- 2 cups milk
- 2 teaspoons vanilla extract
- 1 (2-oz.) package whipped topping mix
- 1 (3¾-oz.) package vanilla flavor whipped dessert mix
- ¼ cup water
- 6 to 8 whole candied cherries
- ½ cup chopped walnuts

Soften ice cream slightly. Pack into a 9-inch straight-sided round cake pan which has been lined with wax paper; freeze Sift together next three ingredients, combine with graham cracker crumbs. Cream butter or margarine and sugar until light and fluffy. Add eggs, one at a time, beating well after each addition. Alternately add dry ingredients and 1 cup milk beginning and ending with dry ingredients Stir in vanilla extract. Pour into 2 greased paper-lined, 9-inch straight sided cake pans. Bake in a preheated moderate oven (375 degrees) 25 to 30 minutes or until done Invert onto cake rack. Cool completely. Combine whipped topping mix and vanilla flavor whipped dessert mix. Add 1 cup cold milk, beat at high speed 2 minutes. Add ¼ cup water; blend. Beat until thick. Place ice cream layer between cakes. Frost cake, reserving ¾ cup topping for garnish Spoon on six or eight soft puffs, using reserved topping. Top each puff with a cherry. Coat sides with chopped walnuts. Freeze until firm; foil wrap. Remove to room temperature 1½ to 2 hours before serving.

* * * *

RASPBERRY FILLED CAKE

- ½ cup (1 stick) butter
- 1 cup sugar
- 2 eggs
- 1 teaspoon vanilla
- 2 cups sifted cake flour
- 1 tablespoon baking powder
- ½ teaspoon salt
- ⅔ cup milk
- 1 package (10 oz.) frozen raspberries, thawed
- ½ cup raspberry syrup
- 2 tablespoons sugar
- 1½ tablespoons cornstarch
- 1 tablespoon lemon juice
- 1½ cups dairy sour cream

Butter and flour 2 round 9-inch pans. Cream butter Gradually add sugar; beat until fluffy. Beat in eggs, one at a time Add vanilla. Sift together dry ingredients; add to creamed mixture alternately with milk, beginning and ending with dry ingredients. Spread in pans. Bake 25-30 minutes in a 350 degree oven After 5 minutes turn out onto racks to cool. Drain raspberries; save ½ cup syrup. In a small pan combine sugar and cornstarch; gradually add syrup. Cook over medium heat, stirring constantly, until thickened; cook 2 more minutes. Add lemon juice Chill. Fold syrup and raspberries into sour cream Spread half the filling between cake layers and the rest on top. Refrigerate until served

WALNUT CAKE

- 1 cup butter or margarine, softened
- 1¼ cups granulated sugar
- 6 eggs, separated
- 1 (6-oz.) package swieback, finely rolled
- ½ cup sifted all-purpose flour
- 1 teaspoon baking powder
- ¼ teaspoon salt
- ½ cup orange juice
- 2 teaspoons grated orange rind
- 1½ cups very finely chopped or ground walnuts
- 1 pound confectioners' sugar, sifted
- ¼ cup orange juice
- 1½ teaspoons lemon juice
- ¾ cup strawberry preserves

Grease, then line bottom of two 9-inch layer cake pans with wax paper. Cream ½ cup butter or margarine and 1 cup sugar until light and fluffy. Add egg yolks one at a time, beating well after each addition. Combine next four ingredients, blending well. Add to creamed mixture alternately with orange juice. Stir in rind and nuts. Beat egg whites until soft peaks form. Gradually add remaining sugar, beating until stiff but not dry. Fold into batter. Pour into prepared pans. Bake in a preheated slow oven (325 degrees) 35 to 40 minutes or until done. Cool in pans 15 minutes; turn out to cool completely Beat 1 cup confectioners' sugar and remaining butter or margarine until light and fluffy. Add remaining confectioners' sugar alternately with orange juice, beating until smooth. Beat in lemon juice. Reserve 1 cup for decorating. Spread a layer on top surface of bottom layer; then cover with ¼ cup preserves. Place second layer on top. Spread with remaining preserves, leaving a 1-inch border. Frost sides of cake and top border. Using a pastry bag with a #5 closed star tube, decorate rim of cake with reserved frosting. Makes one 9-inch cake.

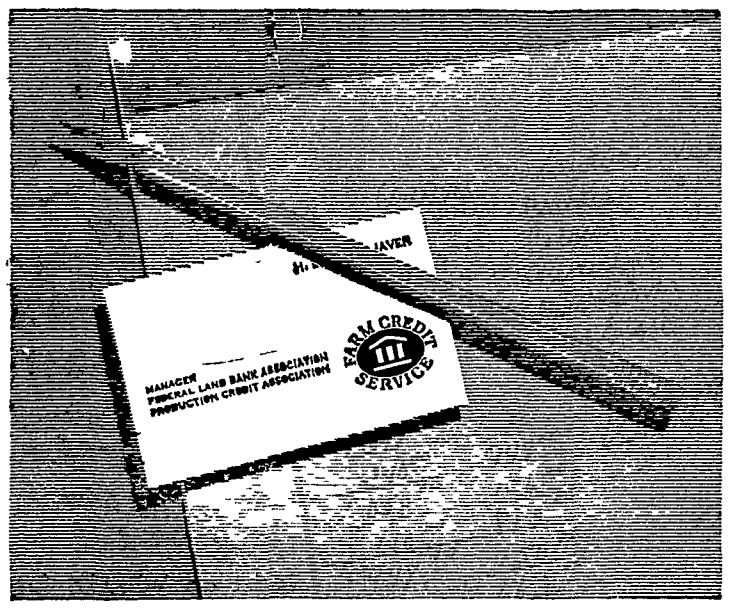
SHENK'S FRUIT & VEGETABLE FARM



Two important things when borrowing money

You need a sharp pencil plus the specialized financial advice of Farm Credit to determine how your financial needs can best be served. Farm production must be maintained, even increased if possible. Providing the financing to insure this is Farm Credit's job. Farm Credit loans are available now for any sound farm need. And, at realistic rates. Farm Credit interest is based on the unpaid balance of the loan. That saves you money.

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

THOMAS

Peanut Butter Popular Nutritious Food

Peanut Butter was invented about the year 1800 by a St. Louis doctor who was searching for a high protein food for his patients. He ground roasted peanuts, added salt, and fed the mixture to them

Soon grocers were selling peanut butter to their customers

Today you'll find an abundant amount of peanut butter available in grocery stores.

It's estimated that 4 out of 5 homes in America have a jar of peanut butter in their cupboards.

Use Credit Wisely

When you use credit, remember:

Make as large a downpayment as possible Your payments will be less.

Pay the balance as quickly as you can. You'll save money.

Your credit rating is valuable. Protect it Use credit only for things you really want and need.

Make sure advantages outweigh the disadvantages

Learn about the different kinds of credit.

Shop for credit and get it at the lowest possible cost

Decide the best kind for your purpose

Understand the terms of any contract you sign

Cook Meats and Poultry Slowly

When cooking meat and poultry, remember slow cooking at low temperatures means less shrinkage and juicier, more tender, and attractive meat.

No Other Protein Need When You Feed

USE ONLY ⅓ LB. SPECIAL TANVILAC PER HEAD PER DAY WITH GRAIN AND ROUGHAGE — GET BIGGER PROFITS

● Grange News

(Continued from Page 11)

seer, Richard Holloway; Lecturer, Mrs. Jesse Wood; Steward, Richard Nye; Assistant Steward, Stanley Stauffer Jr.; Chaplain, John Galbreath; Treasurer, Clair Murphy; Secretary, Mrs. Charles McSparran; Gatekeeper, Earl Smoker; Ceres, Miss Carole Holloway; Pomona, Miss Elaine Galbreath; Flora, Mrs. Ambrose Giffing; Lady Assistant Steward, Mrs. Stanley Stauffer Jr.; and Executive Committee member, J. Robert Reed. The installing officer was Charles McSparran; Marshall, William Ambler; Regalia Bearer, Mrs. Thomas Galbreath; Emblem Bearer, Miss Jean Moss and pianist, Miss Mary Lou Wesley.

Miss Hillian Johansen, a native of Sweden, who is presently visiting with the Henry Holloway family in York County and who is in the United States in connection with the "International Farm Youth" program showed colored slides of Sweden and gave a very interesting talk about her native land.

During the business session the Charter was draped in memory of Mrs. Sara Etta Boyd, Mrs. Frank Wright and Harry W. Ecklin.

Fulton Grange will entertain the Lancaster County Pomona Grange #71 October 14. Thomas Galbreath will handle fifth degree applications for Fulton members and the hospitality committee will be Mrs. Charles Long, Miss Evelyn Spence, Mrs. Ralph Armstrong, Mrs. Chester Todd and Mrs. Ralph Long.

The Grange is sponsoring a chartered bus trip to the evening session of the ninety-fifth annual convention of the Pennsylvania State Grange October 25 which will be held at Gettysburg. Gyles Brown is in charge of reservations for the trip. The bus will leave Quarryville at 5:45 p.m.

Mrs. Jesse Wood will present the program at the next regular meeting October 23 and the Youth Committee will be in charge of a scrap drive that night for the benefit of Boy Scout Troop 330.

Most people are afraid of something — very often, themselves.

YOU'VE GOT TO HAVE A SYSTEM — GO JAMESWAY POWER CHORING

HOT-DIP GALVANIZING

Jamesway dips steel into molten zinc to protect both inside and outside surfaces against rust and corrosion. This gives life-long protection that only Jamesway's heavy-coat process can provide. Jamesway uses 30 pounds of zinc to cover the same surface we could coat with a single pound of aluminum paint!

PROTECTS BIG J BARN EQUIPMENT FOR AS LONG AS YOU OWN IT

Jamesway's hot-dip galvanizing assures fine appearance, too. And you are free from the work, trouble, and expense of periodic cleaning and painting. It gives you permanent value with long-range savings.

Gehl 72

never quits till you do!

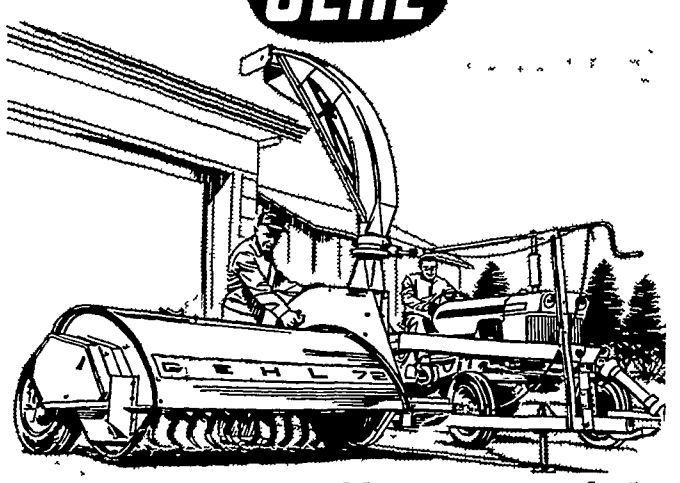
The Gehl FC72 Flail Chopper out throws 'em all... even in heavy, wet crops. Right now thousands of FC72s are out there cutting a big 72-in. swath — close and clean — in the heaviest crops. Throw power? The Gehl 72 breezes right through rain soaked, dew laden forage. Here are some of the reasons why:

39 Reversible Flails give you a full 6-ft. cut. Razor-edged, double-edged... for double chopping life. Mounted in gangs of six and seven for quick switching.

Powered Double Chopping lets you cut short and fast. Your crop is flail cut, then augered to the unitized fan and knives... cut again against an adjustable shear bar and blown to the wagon.

Easy-Swing Drawbar adjusts from your tractor seat. Change to any of four positions... three offset and one for transport, with the pull of a rope.

GEHL®



Make us Prove it with a Demonstration!

NEW!

SELF-PROPELLED FEEDER FOR STALL BARNS

Feed your cattle mechanically — right in their stalls — with revolutionary new Badger Self-Propelled Feeder. Distributes chopped hay, silage, grain or mixed feeds evenly, quickly, quietly — the entire length of the manger. It's a Badger first — now available to you!

No feed separation — Badger's new Self-Propelled Feeder distributes all types of feeds evenly. No separation of fine and coarse feeds.

Versatile — New Badger principle lets you feed rations individually, mixed together or one over the other — the entire length of the manger.

Lower operating costs — Lower power input (only ½ to 1 hp) greatly reduces operating costs, maintenance needed

Plan now to reduce your feeding costs, see us. Ask about convenient Badger financing.

John Deere 237 Corn Picker

raises the speed limit in high-yield corn

Shift up! Pick at speeds up to 5 mph, even when yields run well over 100 bushels. Long, tapered gatherers and high inside shield, funnel stalks right in. Even tangled stalks seldom escape **three** roller-type gathering chains. There's new gathering and snapping speed. And the 237's spiral snapping rolls cut shelling loss in half.

Faster elevators with higher flights move corn up fast. Trash goes too, aided by new rotating trash paddles. New husking rolls — cast-iron spirals against serrated rubber — peel husks, pull trash through. You pick clean. See the new 237 soon. Ask about the Credit Plan.

WHY? YOU ASK?

WHY SHOULD YOU LIST YOUR COUNTRY PLACE, FARM, LAND OR LOTS WITH WENTZEL?
Because Wentzels have many waiting city buyers who many times pay higher prices than your local buyers; because everybody knows Wentzel advertises regularly; Wentzels help arrange financing; Wentzel has a whole barn-full of ex-farmer boys (now skilled negotiators) to help sell your present place more quickly and efficiently and to help you buy or build your next home. Phone 394-3763 today.

Poultrymen From 5 Foreign Countries Here

Poultrymen from England, Canada, Brazil, Argentina and Czechoslovakia as well as numerous people from the Northeastern United States visited Lancaster county Monday, on the NEPPCO poultry tour that stopped at leading farms, processing plants and poultry equipment establishments. The schedule of stops for the four buses included L. M. Sheaffer's Cloisterdale Farm, Ephrata; Victor F. Weaver, Inc. New Holland; Big Dutchman, Inc, New Holland; Indian River Poultry Farm's Hatchery, Landis Valley; and John J. Oberholtzer's grow-out farm, Leacock.

The group ate a box lunch at the New Holland Park at noon, visited the Pennsylvania Farm Museum at Landis Valley in the afternoon and enjoyed a full course Pennsylvania Dutch dinner at Plain and Fancy Restaurant in the evening

In welcoming the group at the dinner, John H Hess, president of the Lancaster County Poultry Association told the tourists that Lancaster County is the most productive county in the state and reportedly accounts for about one percent of the country's total egg production

"In the poultry business," Hess said, "as in any other industry, what you accomplished yesterday, and even today, cannot be relied on to carry you through tomorrow.

"Our leading poultry people realize this basic fact of life, and as you have observed in traveling through our county today, they are doing something about tomorrow's egg and broiler production right now

"While none of us know what tomorrow's challenges may involve, we are working toward the basic goal of supplying our own markets We are located next to one of the prime consuming areas in the world I feel certain our producers will continue to make whatever adjustments are called for to serve that market

"Many economists once claimed — some still do — that future production would shift to the areas of lowest cost Recently, however, opinion suggests that production will be close to consuming areas The reasons suggested for this — higher transportation and labor costs, for example — make sense, I think

'The poultry industry in the area is staking its future on the fact that it can continue to get its share of this market despite the best efforts of competitive areas," Hess concluded

The tour left the restaurant at 8 15 p m and was scheduled back in Harrisburg at 9·30 p m

NEPPCO POULTRY TOUR VISITS LANCASTER COUNTY. One hundred fifty-five poultrymen on four buses from five foreign countries as well as numerous representatives from all over the United States visited Lancaster County Monday, as members of the NEPPCO poultry tour. In the photo above the tour made its first stop at the Cloisterdale Farm of L. M. Sheaffer, Ephrata. L. F. Photo
